LET ALL THE PEOPLE BE EDUCATED.

Ours is a Republican form of Government. In it the prize is not set on high for a favored few, nor are the avenues locked to all but the possessors of a golden key. The child of poverty and obscurity as well as the child of wealth and honor, may aspire to the same rank, the same credit, the same sources of enjoyment, and is bound by the same general duties. The *means* of acquiring these enjoyments ought not to be witheld. And among the more important of these is EDUCATION.

We have ever held that it is the duty of the State to make provision for general instruction. It is the interest of the people that the civil rights and institutions which they enjoy should outlive the dangers to which the fluctuations and changes in society must subject them, and be perpetuated in their prosperity. It is, therefore, the *interest* as well as the *duty* of the lawgivers to provide for general instruction. It is the interest of every individual and every class of the people. Not merely in their civil and collective capacity, but in every capacity, in every relation, in every pursuit which can justly excite the attachments or the activity of a rational and immortal being, amid the obligations of public, or more endearing ties of domestic life, in the pursuit of business or repose. To the owners and operators of every valuable species of property its fruits must be an increased improvement and security; and to those who have none it gives consolation and usefulness and the hope and means of acquisition.

But this is not all. By no means. It has been strongly said that the constitutions of the nation do not recognize such a being as an unlettered man. Every citizen has not only the right but is ever liable to be called upon to take part in public affairs. One of the most simple and ordinary of political acts which a freeman is called to perform, is that of giving his suffrage. He should be qualified to perform it with intelligence, with a mind instructed so as not to be misled by influence or art. He should be able to *read* his vote and *write* his name.

The truth is the rudiments of education are the *equipments* of the citizen. He ever needs them in performing the duties of self government. It is the duty, the business of the State to see that they are provided.

THE BEST COMPACT OF GOVERNMENT.

Hon. HENRY S. FOOTE, of Mississippi, has just published a book, being personal anecdotes and reminiscences of the past twenty years. In it he makes use of the opportunity to indulge in political speculations, and to favor the reader with his views on the condition and prospects of the country. Notwithstanding the active part that he took in the counsels of secession, he expresses his conviction that the Constitution of the United States is by far the best compact of government that the human intellect has ever framed. In his opinion, the recent amendments have added greatly to its value. They are such as the original founders would have incorporated with it, could they have forseen the grave perils through which their descendents have been compelled to pass. Mr. FOOTE confesses that his faith in the Union has been confirmed by the experiment of secession. That experiment, he remarks, has proved a signal and even a ridiculous failure. The heroic blood which was so freely poured out in its support is found by the event to have been shed in behalf of a romantic illusion. The utterly untenable dogma of secession has become at last "a sounding brass and a tinkling cimbal." Such fervent expressions of loyality are of course grateful to every patriotic reader. They indicate a love of wisdom, even at the eleventh hour.

Last week a number of Democratic State Conventions were held. From the platforms adopted we see that there is a wide diversity of sentiment upon important public questions, especially the Currency and the Tarriff. In the Western States the Conventions were captured body and soul by the inflationists and repudationists and they go before the people as the advocates of free trade under the guise of what is called "a revenue tariff." In Pennsylvania they squint towards a Tariff and clamor for the resumption of specie payments. There is anything but unanimity of sentiment among the Democrats of the North and West, and it will be more manifest when Congress meets.

In the North the strongest forte of the Democracy has ever been to make appeals to ignorance and prejudice. Profiting by the experience of their Northern brethren, the Democracy of North Carolina resorted to the same tactics in the recent canvass. They used the prejudice of color unsparingly, and, among the masses, it was a powerful political weapon.

THE CONVENTION QUESTION.

The old Bourbon wing of the Democratic party of this State are anxious to put things back to what they were in ante-bellum days. Having acheived a victory this year they insist that they at once take advantage of it by immediate measures to get rid of our present Constitution and adopt one similar to the old one. About one half of their papers in the State are agitating a Convention for this purpose. The other portion—the milder and more cautious portion, raise a warning voice against it. Among the latter is the Raleigh *News*. It says:

Have our cotemporaries in the State that are advocating the agitation of the Convention question before the next Legislature thongh of the fact that it takes a two-thirds vote of each House to make an absolute call, and that it takes *Eighty votes* to give a two-thirds vote of the House? And have they made a count of the positive Conservative strength of the House—exactly *eighty votes*, not counting three independents? Have they noticed that it requires a positively unanimous vote of the Democratic or Conservative members of the House to call a Convention, without the question being submitted to the people, and does not every member of the press of North Carolina know that at least one or more Conservative members will not sustain the question? Let the Convention be needed ever so much, we believe it impossible to obtain a unanimous vote in the House of Representatives, which vote is absolutely necessary; then where the necessity of uselessly agitating the public mind upon the question?

INFORMATION WANTED.

We are requested to publish the following.

ON THE WESTERN ATLANTA R R,
Georgia, June 21, 1874.

DEAR SIR—Thinking your paper was one that would be most likly to find its way into Eastern North Carolina, I send you the followihg.

On the 3rd of May, 1874, a young man left Prima county, Arizona with me, and on the 11th of the same month, while in the San Juan Valley, we were attacked by the Indians and he was killed. His name was Wiljiams, and he told me he was raised in Eastern North Carolina, on the Roanoke river, near Albemarle Sound. He has considerable property in Arizona. On his person I found a gold cross with the name of J. G. Willams. He was a young, man about 24 years old, dark curly hair, black mustache, well educated. He fought bravely; he made three red skins bite the dust before he was killed. The remainder of us made Colorado safely. Any information concerning him can be had by addressing me at Key West, Fla.

H. P. JONES, JR.

Bishop MILLS, of Kentucky, the first ordained colored Bishop of the Methodist Episcopal Church South, in his circular letter, uses this language in reference to questions involved in the Civil Rights bill:

"We believe that there should be no antagonism of races; we are in the same ship, and half cannot be scuttled without sinking the whole vessel. We believe, therefore, that our people should be educated. We must have our own schools, and conducted by men and women of our own race. We have never yet, as a people, or as individuals, sought to have our schools or churches mixed up of different races. Our church is a colored church. By special law our membership is confined to one race."

One thing must be remembered if we desire success in the next campaign. There must be no recognition of "bolters." *We must have harmony.* We must arouse a hearty *esprit de corps* throughoutt our ranks. With our forces reinforced we can marshal our full strength in solid array and then we will be invincible. But we must have party discipline. Its laws and usages must be recognized and enforced. Those who will not be bound by our Conventions *must be ruled out* of them.

The recent Democratic successes are bringing the Bourbon element of the party to the front again—the element that never forgets and never learns. It was JOHN STUART MILL we believe that called the old Tory party of England "the stupid party." The Bourbons of the Democratic party of this country, and especially of the South, are afflicted with chronic stupidity and advertise their foolishness on every public occasion.

A girl, a can of coal oil, and a chunk of fire are three things that should never be left in a room together.

It is thus the Louisville *Courier Journal* sums up the moral of a recent death. But it was the *matches* that made the mischief, and to have girls without having matches is almost an utter impossibility.

Our Book Table.

LITTLE STORIES FOR LITTLE PEOPLE, by James Baron Hope, Norfolk, Va.

The author, who is editor of the Norfolk *Landmark*, has favored us with a pamphlet containing two very pretty little stories, to wit: "Good Arabella and wicked Bob," and "The Death of the Flowers." They were first invented for the entertainment of his own children and are now published for the amusement of little people generally. They are admirably adapted for the purposes designed and cannot fail to accomplish good.

Poor Brigham.

"The gods mete out to all an equal fortune," said a poet of the brazen age; but the wiser and keener-eyed Shakespare knew better, and held that—

"The gods are just,
And of our pleasant vices
Make instruments to plague us.',

Doubtless what the Roman meant to say was that in the long run men fare about alike, so that, for example, a man who seems so firmly and securely married that fifty monogamous gentlemen combined cannot begin to compare with him in point of weddedness, stands in just as much danger of having a suit for divorce brought against him, his marriage vows made things of naught, his countless Lares and Penates ignominiously smashed to flinders on his various hearthstones, and his myriad offspring turnded in a moment to half-orphans, as does he who is linked by fragile chains to but one wife. If anybody in the world might have been thougt secure from trouble in the divorce line, that man was Brigham Young; but now his pleasant vices have come to plague him, for one of his wives, Ann Eliza Young, has sued for separation, and demanded $20,000 for the services of her counsel and $1,000 per month for the support of herself and children.

Now Brigham has a large family of his own to take care of. Aside from Ann Eliza and her brood there are sixty-three persons clustering about his knees clamoring for bread, and to support them he has but $600,000 in property, while his total income is but six thousand dollars a month. This is a serious business. Brigham cannot dig; to beg he is ashamed. How can anybody expect him to support seventy persons on such a pittance as a paltry $6,000 a mouth?

But Brigham asserts in his answer that Ann Eliza is not only not his wife, but she isn't being the wife of James L. Dee, from whom she has never been legally divorced. As to himself, he holds that he has but one lawful wife, whose maiden name was Angell, and that Ann Eliza was never joined to him but in "celestial marrage," as also were his other wives, except the Angell, numbering with their children some sixty odd persons in all, for whom he has to provide. As against an Angell bonny Annie o' the Dee seems to have poor chance of success in a court of law in which the great polygamist appeals to laws which permit only of monogamy.—*Graphic.*

The Great Preacher Exonorated.

Henry Ward Beacher's trial at the bar of public opinion for the heinous crime with which he was charged by Theodore Tilton, and his acquital of all blame by the great majority of those who first believed him culpable or who doubted his innocence, are still topics of absorbing interest. As we view the matter—in the light of the statements and testimony of Mr. Beecher, Mrs. Tilton, and others—the crime is "not proven." On the contrary, the most remarkable and popular preacher and lecturer of the age is fully vindicated from any greater wrong than weakness in not long ago boldly facing and defying his traducers—for his enemies have really proved nothing else, except their own malicious wickedness. Mrs. Tilton's remarkable statements and retractions may be fully accounted for by the wonderful *mesmeric* influence which her designing husband exerted over her. Mr. Tilton, after having dishonored his own bed and disgraced his family and friends, used his confiding wife (through the strong control of her will by the power which, in ner testimony, she said seemed mesmeric,) as an instrument to crush the man whom his jealous soul could not bear to see standing higher than himself. From all that appears Moulton was Tilton's tool. Mr. Beecher's great fault was in trusting his enemies as bosom friends, and in mistaking blackmail for charity. Whatever committees, courts or threats may do in future, the public will be divided in opinion; yet, from the statement of Mr. Beecher, and the testimony adduced, we are constrained to believe the accused innocent of any intentional wrong-doing. The scandal has been most infamous and demoralizing, and we hope society will never see the like again. Much that the press has published on the subject is unfit to be read either by the rising or risen generation, and a disgrace to the boasted "enterprise" of American journalism.—*Rural New Yorker.*

Summary of News.

A young lady is School Superintendent of Peoria county, Ill.

The Spanish and Italian languages are now taught in the College of Charleston.

A Buffalo editor never takes time by the back hair. He simply casts the eye of his mind across the chasm of centuries.

Moulton says he told Mr. Beecher that he (Moulton) was no Christain but that he would show him how well a heathen could serve him. As a heathen Moulton really seems to have been a success.

First drunkard—"I live far away. I am not like you, a rich man, who can afford to live in the centre of city." Second drunkard—"Never mind rich! Of what is it to me? Even if I was a millionaire I couldn't be more drunk than I am."

Queen Isabella, of Spain, has been summoned by her Parisian butcher and other tradesmen for non payment of bills. Her Majesty's defence is that she contracted with her cook to supply the Royal table at twelve france a day per head, exclusive of wines. The court has delayed decision.

A sturgeon six feet long, thirty-eight inches girth, and weighing one hundred and fifty pounds, has been taken with a gear in Lake Monona, at Madison Wis. The spear had one hundred feet of line, and with this the sturgeon towed a boat with two men backward and forward for an hour or two before it was finally landed.

When Mr. Jefferson was presented to the Court of France as the American Minister, he was often asked, "Is it you, sir, who replace Dr. Franklin?" to which he generally answered, "No one can replace Dr. Franklin; I am only his successor."

It didn't rain for some time in a Western town, and when the flood did descend, the editor said. "After many days of arid dessication, the vapory captains marshalled their thundering hosts and poured out upon scorching humanity and the thoroughly incinerated vegetation a few inches of *aquapluvialise.*"

When will boys and men cease to handle fire arms with such utter recklessness? A terrible accident occurred at Toronto on Sunday evening. While the Rev. Mr. Day was preaching in Holy Trinity Church his eldest daughter, Mary about twenty years of age, and a young son ten years of age, were at home; the young boy picked up a gun which had been carelessly left loaded in a bedroom, and pointing it at his sister, said, "Do yon want me to shoot you?" at the same time pulling the trigger. He literally blew the side of the young lady's head off.

Marshall Bazaine has written to the French Minister of the Interior exonerating the prison authorities from any connivance at his escape. Three or four Paris papers procured copies of the letter and published it, thereby incurring the displeasure of the Government. They will be tried, and doubtless punished under the law not long since passed to meet such cases. The Marshal, according to mail accounts, was like his and our first parent, over-persuaded by his wife. Upon the whole we cannot blame him much for improving the opportunity. There would have been a certain dignity if he had carried out his avowed intension and resolutely served out his sentence. That his trial and condemnation to death were quite just according to military usage we said at the time when they were made public. But the sentence was commuted, and the prisoner had an inalienable right to choose liberty instead of confinement if the choice were open to him. Of course he has effectually debarred himself from any possible career in his native land, whatever changes the Government may undergo. Even if the Empire were restored, and he should be permitted to return unmolested to Paris, his position would hardly be endurable after what has passed.

Bishop Miles, of the Colored Methodist Church of America, preached the other Sabbath in the pulpit of the Rev. Mr. Settle, Louisville. This is the first time in Louisville that a colored clergyman has preached to a white congregation.

The Rural Sun reports the receipt of one wheat plant having 57 heads from one root. Forty-two of these heads were filled with grain, the rest were but partly filled. The whole contained 2,820 grains, the product from one seed.

A consignment of eggs was recently received from Ohio in New York. Upon unpacking the barrels the consignee found at a distance of 14 inches below the head several live chickens which had just broken the shell. The chick were taken care of and are doing well.

Here is an instance of school discipline in San Francisco, showing of the most ridiculous results of the modern system. *The Post* notes that in one of the primary schools the other day a whole class of young children was kept in for half an hour because some of the little things, in their eagerness to answer questions, had abandoned the required position of keeping their hands behind them: This "discipline" was made more stupid and cruel by the fact that during this half hour the little children were kept in fixed positions, without occupation for either body or mind.

Nebraska is also sffuering from the grasshopper plague, which has blighted the hopes of farmers in Iowa, Minnisota, and Western Kansas. Thousands of people in the interior counties are impoverished, and citizens of Omaha who had been sending tons of corn to the starving in Minnesota are called upon to relieve their own people. It seems to be a locust year the world over. Algeria has also been ravaged by these insects, which have left behind enormous quantities of eggs. Trees have also been attacked, and portions of Algeria flights of sparrows have doue great mischief.

Naturally enough they don't like paper money at Gold Hill, Nevada, and the newspaper there is savage upon "the very bad and dirty notes of the National Banks which have been in circulatiou long enough to cover them with grime and make them unwholesome to look at, and unhealthy to handle." There used to be a proverb that though work might be dirty, the which it earned was clean; but it is so no longer. It is of small use, however, to grumble. Dirty money is better than no money—only the dirt affords such an excellent motive for spending it as rapidly as possible.

The United States Signal Bureau is perfecting its organization. Arrangements are made with different European meteorologists for a grand international system of reports, the benefit of which will speedily accrue to American seaman in any part of the world. Since the 1st of January, in all the principal European nations, observations have been taken each morning at the same moment of time that has been selected for the regular signal stations in this couuty, and these are forwarded by mail semi-monthly to the Signal Office in Washington for discussion, in connection with the regular reports of this country. Nearly 200 foreign stations are now engaged in this work, and sufficient data will soon be collected for the deduction of general laws in relation to the movements of the atmosphere that will mark a new era in meteorology.

"WE AND OUR NEIGHBORS"

is the latest and raciest work by

HARRIET BEECHER STOWE,

Author of *"Uncle Tom's Cabin," "The Minister's Wooing" "My Wife and I,"* and other powerful stories, each the literary sensation of its period; and this story promises a like genuine and *Wholesome* sensation; It bears directly on social topics of interest, embracing the romance of yonthful companionship' the brightness of happy home.ife, the spicy complications of neighborhood association, and such follies and profound domestic miseries as have led to the widespread *Temperance* movement of the day.

MRS STOWE is now in the prime of that genius which wrote *"Uncle Tom,"* ripened by years of study and observation. Her novels are immensely popular, *"Uncle Tom's Cabin"* alone out-selling by hundreds of thousands any edition of any original work ever published—*save the Bible.* Her book two years ago, *"My Wife and I,"* outsold every contemporary. Such a pure and ennobling story as *"We and Our Neighbors"* should be read in every home. This attractive Serial is just beginning *exclusively* in the

Weekly Family Newspaper.

Iron in the Blood

PERUVIAN AN IRON TONIC SYRUP

MAKES THE WEAK STRONG.

The Peruvian Syrup, a Protected Solution of the Protoxide of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures "a thousand ills," simply by Toning up, Invigorating and Vitalizing the System. The enriched and vitalized blood permeates every part of the body, repairing damages and waste, searching out morbid secretions, and leaving nothing for disease to feed upon.

This is the secret of the wonderful success of this remedy in curing Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhœa, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints, *and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor, and new life into all parts of the system, and building up an Iron Constitution.*

Thousands have been changed by the use of this remedy, from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

See that each bottle has PERUVIAN SYRUP *blown in the glass.*

THE DAILY GRAPHIC

The only Illustrated Daily Newspaper in the World.

With its issue for March 4, 1874, THE DAILY GRAPHIC entered upon the second year of a career phenomenal in the history of journalism. Its story of a twelvemonths has been a steady and unquestioned growth in popular acceptance as the most original, artistically luxurious, and wonderfully comprehensive metropolitan journal ever published in the United States.

As a brilliant novelty, the whole country has confessed its unique attraction; as a practical and marvellously complete Newspaper, it has become a daily necessity to the social and mercantile interests of one of the largest permanent constituencies ever attained by a journalistic enterprise in the same period, while its great specialty, beyond all actuality or hope of competition, as

A SUPERB PICTORIAL MIRROR

DAILY HISTORY,

has been the wonder, delight, and new education of individuals and homes in every State of the Union. In the very idea of such utilization of the finest pictorial art, for every day's information and reflection, there is all the charm of a romance; and the realization of that idea, made visible in THE DAILY GRAPHIC, is a practical and ever-varying assimilation of the most fascinating Ornament with the commonest Use which never palls upon even the most pampered taste. From the first issue the successive multitude of its pictures has been a perfect study of mechanical and journalistic development; the inevitable early imperfections of artists and others, not yet thoroughly trained in the new process, disappearing steadily in an as steadily increasing accurancy and beauty of artistic effects. Indeed this very illustration, from day to day, of the Time's spirit of progress in Art, as well as in Events has been an added and piquant interest, which is yet to be maintained for the public by unending future "Graphic" improvements. Scarcely more, however, for its beautiful portraits, trenchant cartoons, vivid news-etching, and unequalled reproductions of the world's choicest works of art, than for its unrivalled attractions as

A MODEL JOURNAL

NEWS, SOCIETY, AND LITERATURE, has THE DAILY GRAPHIC been nationally recognized and popularly welcomed. Its genuine editorial independence, wide sweep of intelligence, ever-varying department of literary and persona interest, sparkling correspondence and pungent criticisms, make it as much a favorite in the sanctum of the great Western or Southern or Northern newspapers as in the counting-room and the family circle.

THE DAILY GRAPHIC is an Eight-page Paper, published every afternoon (three editions), in time for the errly mails to all parts of the country.

THE DAILY GRAPHIC has a larger average circulatiou—more copies printed and sold each day—than any other evening paper in New York excipting only the [penny] *News.*

THE DAILY GRAPHIC is a great newspaper, as well as the only illustrated daily paper. It has special correspondents everywhere, and it has a larger staff of writers and news-gatherers than any other evening paper in New York.

THE DAILY GRAPHIC is preserved for binding by hundreds of its readers in city and country. The annual subscriber gets a Pictorial History of the Year, a volume of twenty-four hundred pages, constituting a valuable record of events and a graphic panoroma of our time and progress,

NORTH CAROLINIA N

WEDNESDAY, SEPT 2 1874.

☞TO NORTHERN VISITORS.☜

Elizabeth City is 50 miles South East of Norfolk, Va. Parties coming here from the North should take passage on the Bay line steamers which leave Baltimore at 4 P. M. every evening, and arrive at Portsmouth the next morning in time to connect with the Elizabeth City Steamers.

THIS WEEK'S ADVERTISEMENTS.

Change of Schedule
Shepherd Street Mills

Local and Personal.

☞ Court at Edenton next week.

☞ Our Imp says he never listens to a long sermon whose benediction isn't beautiful.

☞ The market reports are, at New York, Gold is 109¾; cotton dull at 17¼ cents. At Norfolk cotton 15c, corn from 90 to 93c. Wheat $1.10.

☞ Fodder saving has commenced. When our farmers get to raising more clover and timothy and make more hay they will find it more profitable.

☞ This is the way some of our exchanges put it: "Country boys now walk around apple trees looking for the ball they lost."

☞ A very large and successful colored protracted Meeting closed at Holly Grove on Sabbath last. It was conducted under the auspices of Rev. J. C. COLEMAN.

☞ Judge ALBERTSON held Court at Hertford, Perquimans county, last week. There were a larger number of cases on both the criminal and civil dockets than usual.

☞ In reply to numerous inquiries in regard to the rail-road we would say that we are informed that Mr. MILLER, the contractor, has negotiated for four thousand tons of iron for the road, and that he will be here very soon to resume the work.

☞ As a matter of public interest we publish, on our first page, the revised and amended Charter of Elizabeth City; also the laws governing all incorporated towns. They have been gotten up with great care and will be found very useful.

☞ August has been an unusually cool month. Indeed, excepting a few days, not over two weeks in all, we have had but little hot weather this summer. We are living in the "Sunny South" it is true, but this season we have hardly realized it.

☞ POMO is a new word lately invented and being gradually brought into use as a substitute for "post office money order," just as "telegram" has been adopted in the place of "telegraphic despatch." It is a very good word, and its adoption will be a great convenience. We trust that hereafter we will find ourselves in receipt of money *pomo's* daily.

☞ What that stupid paper, the Washington *Echo*, is published for is a standing conundrum. Its editorials are without vigor, its paragraphs are without pith and its jokes are pointless when they are not stale. This poor burlesque on modern journalism is a weekly illustration that a newspaper cannot be made without brains.

☞ We had a very pleasant visit on Thursday last from a distinguished party of gentlemen from Norfolk. It consisted of Commodore MARSHAL PARKS of the Albemarle and Chesepeake Canal Co. Col. WM. B. RODGERS of the Dismal Swamp Canal Co., Capt. HARRY ROBINSON, for sixty years connected with the Bay Line, S. R. BORUM Esq., ex-editor of the Norfolk *Journal* and A. S. MARTIN Esq. They came out in the pretty and fast going Yacht *Jennie Parks*, arriving here on Wednesday evening and returned on Thursday.

☞ In our next issue will be published the Premium list of the Fair to be held at this place by the Agricultural Society on the 28th, 29th and 30th of October. It will be liberal, embracing horses, cattle, sheep, hogs and poultry; also farm, kitchen, dairy, vegetable, floral and orchard products, household fabrics, fancy articles and flowers. We are glad to learn that a lively interest is already being felt in this grand home enterprise and that the people of this and adjoining counties propose taking hold of the matter in good earnest.

☞ A cotemporary says that a Democratic politician on the street the other day, asked a friend why it was that the Republican office holders were not turned out and their places filled with men around town who had been doing all the work. He said he thought if the Democrats carried the state the Republicans would be turned out immediately and Democrats put in their places. He says he didn't hear what the friend say but he did hear the aforesaid politician say "sold again by—jiminy."

☞ No man has a right, morally or legally, to take the law into his own hands. This is acknowledged by every good citizen, and yet how often do we hear men, especially when excited, express the very opposite, justifying violence in others and threatening vengeance of various kinds. It is all wrong. It tends to weaken respect for law and neutralize its moral force and power. In proportion as this is so do communities suffer. Where law is respected obeyed and enforced, there is protection and safety; where the opposite exists opposite results follow. There is a legal way to arrange all difficulties, settle all differences and redress all injuries, and he is the best citizen who always insists that in this way only should these things be done.

☞ We thank the Welden *News* for the following notice of our Fair:

From the Elizabeth City *Carolinian*, we learn there will be a fair held at the county seat of Pasquotank to begin on Wednesday the 28th of October and continue three days. Gen M. W. Ransom, of Northampton county, will deliver the address. We wish the good people of that section a successful time at their Fair. G. W. Charles, Esq., is President; M. B. Culpepper, Esq., is Secretary; and Dr. P. John, Chairman Executive Committee.

☞ It's no use. We heard of a dog fight on Monday. We sent out our reporter, insisting that he be on the ground at once and write us up a graphic account of the canine contest. He went and came back mad! He reports that just as the fight was getting interesting the beligerents were parted. He says it is too bad; that when anything *does* happen to break up the dull monotony of the town somebody, having no sympathy for "soul-stirring sport" steps in and throttles it. There is one thing we, the editor, sincerely wish somebody would "throttle"—that is the nightly concerts gotten up by the canine fraternity of this town. Do this and all the good people, as they cease to be disturbed in their enjoyment of "balmy sleep," will breathe up a prayer of "thank you."

☞ There has been a good deal of complaint by parties living in the country adjacent to town of losing their cattle. At different parts in the woods blood and other evidences of their having been slaughtered have been discovered. Captain WALKER of the country, having lost two, one of which had a peculiar and unmistakable mark, came on Tuesday to Mr. H. C. GODFREY's in town who is in the habit of purchasing hides, and requested the privilege of examining some that day bought. He found this peculiar one and identified it. Mr. GODFREY informed him that he had that day bought it of a colored man named JOHN WHITE. The latter was at once arrested and brought before Magistrate CALE. He proved by AUSMON BELL a colored butcher in town, that he was employed by him to take it to GODFREY, and Mr. BELL testified that he purchased the animal from a colored man from the country named THOMAS PRICE. A warrant was issued for the arrest of PRICE. The latter has left.

☞ In the tillers of the soil and the mechanics of the country—all who earn their bread by the sweat of their face, the NORTH CAROLINIAN feels an interest, and in every possible way it is disposed to aid them, encourage them, benefit them. These pursuits are indispensible and we are dependent on them. They are honorable too, and should be so recognized. If they have not hitherto so ranked among the other avocations of life it is measurably because their votaries have not asserted themselves. Let them unfetter themselves from every groveling influence that has weighed them down in the social and mental scale. Let them resolve to utilize every improvement made by inventive skill and every fact developed by scientific research and they will not only be respected as they should be but welcomed everywhere.

☞ The influence and power of the press is being appreciated and felt in this Congressional District. When we established the NORTH CAROLINIAN, i was alone. Now there are three other papers in the District. The NORTH CAROLINIAN, being in politics Republican, began to exert an influence that caused the leaders of the opposition to feel uneasy. They decided that the only way to counteract it was by Democratic newspapers. Instead of a single paper they have established *three*, and the leading members of the party in each county are making themselves active in extending their circulation. Unless the leading Republicans in every county of the District do the same thing—make a personal effort to increase the circulation of *their* organ this District will be Democratic ever more. There will be no help for it. Public sentiment is largely influenced by the press. People naturally become attached to the newspaper, they take and read, and its tone and reasoning makes an impression no other agency can. There are hundreds of families in the District that would be largely benefitted by regularly reading the CAROLINIAN. Its candid statement of facts and calm discussion of principles would influence the class we refer to in the right way—we mean the moderate men, those willing to hear reason and listen to argument. All that this class needs to remove prejudice and false impressions is to learn the truth, and there is no way so effectual to reach them as through the weekly visits of a newspaper like the NORTH CAROLINIAN. If the Republicans do not reach this class of voters the Democrats will, and their future political action will be influenced accordingly.

COBB.—At Nag's Head, N. C., on the 20th day of August, 1874, MARY FERREBEE, only child of Hon. C. L. and Patty P. Cobb, aged 11 months and 20 days.

Not quite a year did little Mary remain with us; but her sweet influence will long linger around us.

For rough were the winds of this world for the frail, little flower and she has been transplanted into the fairer garden above. We miss her patient, baby face: one look at the empty cradle and our hearts are wrung with the bitterest anguish; but still, we realize that no happier fate could have been chosen for our darling, than that so early she should have been called and given escape from the cares of life, L.

THE CANT OF IMPOSTERS—It is obvious that physical and constitutional vigor is the best defense against disease, that even the vendors of drastic purgatives advertise them as tonics, stomachics and invigorants, in the hope of enlisting the confidence of the public in the devitalizing and pernicious portions It is amusing to note how these impostors imitate and copy the language in which the medicinal properties of Hostetter's Stomach Bitters are described Although the effect of their rasping evacuants is to destroy the tone of the digestive organs and the bowels, and to rob the system of its vital strength, they are unscrouplously recommended to the weak and prostrate victims of disease as stimulants! It is time this humbug (not a very successful one it is true, thanks to the mature common sense of the American people) was stigmatized as it deserves Such mischievous falsehoods should be exposed pro bono publico Hostetters Stomach Bitters, be it distinctly understood, is a stimulant It has a spirituous basis, and that basis is the vehicle which diffuses its wonderful sanitary principles through every part of the system The tonic, alterative and regulating ingredients of the Bitters would be comparatively inert if they were not, so to speak, carried to the localities where they are required by the stimulating agent The cant which protests against the use of a pure alcoholic fluid, when employed as a means of giving full effect to medicinal extracts of the highest utility, is the cant of charlatanism Every intelligent physician so characterizes it, and the sick who are griped, convulsed and debilitated by the nauseous and disgusting nostrums of the parties who put it forth soon fin to their sorrow that it is a delusion and a snare Hostetter's Bitters, the great sanitary stimulant of the age, is, in the truest sense of the word, a wholesome, vitalizing, renovating preparation.

TWO AMERICAN MAGAZINES.—

The excellence of AMERICAN MAGAZINES has become so well recognized abroad that one of the leading English Papers, the LONDON WEEKLY REGISTER, in a recent issue, thus speaks of SCRIBNER MONTHLY.

"We are constrained to own that SCRIBNER'S MONTHLY carries off the prize against all shilling monthly serials for brilliancy of illustrations and variety of contents. It is simply a wonderful shillen's worth. Nothing can be more charming than the cuts,—full of force and vigor; the light and shade are managed with a truly artistic power. Out of its one and twenty original articles, we really do not know which to choose as best, for each and all are excellent."

Not only is it true that Scribner's Monthly excels the English Magazines, but it is "The Best of the American Monthlies."

In the extent, variety and artistic excellence of its illustrations of American themes, it has never been even approached, much less excelled. It has a large page and gives a greater variety in its contents than any other of the Standard American Monthlies.

In literary character, and in the brilliancy and ability of its Editorial Department it enjoys an unequal pre-eminence.

Its conductors started with the definite purpose of making it the best magazine in the world which they have for a moment lost sight of. They print with pride and pleasure the May and June numbers, recently issued and ask for them a candid examination and a careful comparison of their merits with those of other magazines; and they renew their pledge to the public, to strive for still higher excellence in the future.

A considerable demand has recently arisen in England for St. Nicholas, Scribner's New magazine for boys and girls, one publisher desiring to secure an edition of three thousand of first bound volume (when completed) with his imprint.

The success of St. Nicholas in this country has been even more remarkable than that of Scribner's Monthly. It is pronounced to be "an ideally perfect magazine for children" re and, as is the case with all the best literature for children, it has been found to possess surpassing interest for grown-up readers, as well.

The influence of the periodicals of the day can scarcely be estimated, especially upon the rising generation. Parents and teachers cannot afford to be indifferent to this influence, or careless in relation to the character of the literature furnished to the children outside of their school lessons. In St. Nicholas not only are History, Natural Philosophy, Literature Fine Arts, and annfactures presented in and attretrve way to young readers, but the children are stimulated to seek information for themselves,

The Publishers will send to any address a specimen number of St. Nicholas, postage prepaid, on receipt of ten cents, the bare cost of paper and printing. The magazines are sold by all firstclass Booksellers and Newsdealers, everywhere.

Green Manuring.

Manuring by plowing down growing crops, though among the oldest methods of fertilizing the soil, continues to be one of the most prominent topics in agricultural discussions, the difference of opinion as to its value evidently, as so many of our differences do, depending on circumstances that are overlooked by those who take part in the discussion. On the one hand, it is declared that the plowing down of a green crop is of no more good than the use of so much "acidulated water;" while we see statements from the other side, showing that the very best results have flowed from the practice. So far as we can judge, green manuring is not sucessful in light sandy soils. In the South, the cow-pea is used for the purpose, sowing in early summer and plowing down in fall. In the middle States, clover is used, and farther North, rye. We have recently seen some statements that it has paid handsomely in the New England States, to plow down in the spring a crop of rye, though there was a certainty that it would in a few weeks return $50 per acre, in order that a crop of corn or rutabagas might follow.

This is no mere opinion. The party who practices this has been doing it for years, and finds so much profit from it that he continues the practice. Of course, it goes hard at times to sacrifice a whole crop for a season wholly to fertilizing needs, and it is this which keeps so many from practicing it; but, if only good figures are kept, it will often be found that the cost of manuring an acre by more popular methods very often exceeds the product of many of the most profitable crops.

It seems to us that much more light might be thrown on this method of manuring than has so far been afforded us. There are many plants which might be tried, that would do better than anything so far named. In Europe, lupins are very popular, and some effort was made to introduce them here, we believe, some years ago their advantages are that they will make a good herbage on soil so poor that nothind else will grow. Then, it would be an advantage to grow things which will make a good feed, so that they could be plowed down in time for certain crops, and not take too long to do it. Rye may do pretty well for late spring crops, but would not do for those which had to go in early. It would not be grown sufficiently for the purpose buckwheat would be an excellent article. Soon efter the early summer crops were off, it would grow enough to be plowed down before winter, so as to be ready for the early spring. But the whole subject will bear a reviewing by practical men. Thusfar clover is generally prefered for plowing down.—*Germantown Telegraph.*

The Turnip Culture

Has brought up English and Scotch lands from poverty to fertility—from a low money value to what seems to us to be an almost fabulous price. Why should it not produce the same result at the South?

Will they not at least make the experiment at once, even on a small scale? It certainly won't be expensive. A few pounds of turnip seed, a few panels of portable fence, and some hundred pounds of ammoniated phosphate, in the absence of stable manure, are all that are necessary to begin, and in November the purchase of a few wethers. If they give this folding process a fair trial this year, they will be very certian to enlarge it the next year.

It will be observed that the use of the turnip simply for sheep food is not recommended. Rye would be much cheaper for that purpose. It is the combination of animal food, and the improvement of land, which makes turnip culture so valuable where the climate will allow folding. They cannot adopt this practice at the North, because the turnips would freeze and rot in the ground. Digging, storing and slicing the turnip is expensive. At the South, we have, as farmers, never appreciated the value of winter climate, which enables us to pursue methods which are impossible at the North, such as winter grazing and folding sheep on turnips. It is quite time that we avail ourselves of the especial advantage which a kind Providence has bestowed upon us.—*Rural Carolinian.*

A Small Crop.

The man who plants a small crop will have full time to thoroughly prepare his land before planting—which is half the battle—in consequence of which it will be able to stand a severe drought; he will have full time to renovate his fences, thereby protecting it from incursions of stock; he will have ample opportunity to utilize his entire farm; he will be able to cultivate well with a smaller force; thereby diminishing his expense; and, instead of having his crop press *him*, he can press *it*, and he will find at harvest that he will have much more and of much better quality than if he had attempted to cultivate more, and his expense, vexation and fatigue much less. He can also have opportunity to rest part of his land, and have some for pasture use.

The Dogs.

It is alleged in Connecticut that 3,5000 sheep are killed every yeer by dogs in that State, and that thousands of acres of land are going to waste that might be profitably employed in pasturing sheep, if the dogs were killed or banished.

Another Connecticut writer confirms the above. From 1858 to 1861, he says, 10,600 sheep were slaughtered by dogs in the State, and New Haven county has been almost depopulated. Once, he says, lambs were plenty in the market at ten cents a pound, but now enough for the demand cannot be procured within a radius of many miles. And hundreds of acres are going to waist that might be devoted to the pasturage of sheep, if it were not for the dogs.

Seed Wheat.

While looking through the Louisville Fair, last fall, a farmer contended that seed wheat should be brought from the South for Kentucky, and that when brought form the South, wonld mature several days earlier thau that produced here. In corn, the principle is directly opposite. Seed corn from the North will mature earlier in the South than that obtained on the ground where it is replanted.—*Agriculturist.*

A farmer, in New England, hung up a coat to frighten the birds away from his fruit trees, and, a few weeks after, found that a whole brood had been hatched in one of the pockets.

VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs in Bilious Diseases.

If men will enjoy good health, let them use VINEGAR BITTERS as a medicine, and avoid the use of alcoholic stimulants in every form.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc., etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ringworms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelminitics, will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Jaundice.—In all cases of jaundice, rest assured that your liver is not doing its work. The only sensible treatment is to promote the secretion of the bile and favor its removal. For this purpose use VINEGAR BITTERS.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

DESCRIPTIVE CATALOGUE

OF VALUABLE

NORTH CAROLINA LANDS,

FOR SALE BY

GEORGE D. POOL.

Real Estate Agent,

ELIZABETH CITY, N. C.

In presenting my list of lands and other properties for sale, I would say that no section of the United States offers such inducements for capitalists and emigrants, as this section of North Carolina. In longevity and healthfulness it will compare favorably with any where, and in easy and cheap transportation of products to market, in pleasantness of climate, in the arociability of the people, in great fertility and durability of soil, no section can equal it.

A railroad will soon be built to Norfolk, putting this place in direct communication by Rail, with the whole United States. This, together with our great fishing, farming and manufacturing interests, and certain early completion of already projected works of improvement for putting in nearer, cheaper and easier communication with the Ocean, will render this one of the most important commercial, and manufacturing points on the Southern country.

A desirable house and lot in the town of Elizabeth City on the corner of two principal streets, the principal one, and situated in the best business locality in the town. The lot contains about two acres of land, and the buildings consist of a fair dwelling three stories high, containing eight rooms, all in good order, another two story building with four rooms and pantries, dairy, smokehouses, stables, &c. The dwelling has a good cellar under it. There is room on the front lot to erect two good stores, and they would occupy the best stand in the town for merchandize.

A farm of 700 acres in Pasquotank County 10 miles from town, with fine two story dwelling, large barn, kitchen and other outhouses; as also, two other dwellings. barns and other houses at different points on the farm. This farm is all cleared but 150 acres, is free from swamps and other waste land, and is well adapted to raising corn, wheat, cotton, oats, &c. The price is 14,000 in easy payments.

A farm of 500 acres in Pasquotank County, 6 miles from town, and one mile from the River, with good new dwelling built in modern style, barn, stables, four tenant houses scattered over the farm, fine water, &c. This farm is situated on the most public road in the County, has 300 acres cleared and balance in splendid pine, oak, cypress, maple, sweet gum, and other valuable timber. It is peculiarly adapted to raising cotton, $50 per acre, net, having been realized on a part of it this year in cotton. It also grows corn, wheat, oats, and other crops well. Price $12,000 in easy payments.

Two tracts of land lying on Pasquotank River four miles from town, neatly cleared, and in good cultivation, one contains 1,000 acres, and the other 600 acres. Both have good fisheries, and the land is equal to any in this section. Price $20,00 per acre in easy payments. Also several smaller tracts for sale, ranging from 50 to 100 acres each, at low prices, and on easy terms.

Also two fine farms in Pasquotank county, 10 miles from E. City, within half mile of church, school house and post office. One tract contains about 400 acres, with fair buildings and mostly cleared, and the other contains 300 acres, with good two story dwelling, large barn, and other outhouses, both are offered at $20 per acre, one third cash, balance in one and two years.

Three farms—one of 100 acres, one of 80 acres and one of 190 acres, within two miles of town, mostly cleared land. Price $20 per acre for each tract—payments on easy terms. Also many other valuable farms and town lots too numerous to mention.

The Saturday Evening Post.
The Oldest and Best Story Paper Published.
Founded August 4th, A. D. 1821.
For more than half century the SATURDAY EVENING POST has been the
GREAT LITERARY WEEKLY
of the Country, and has ever born a widespread and unblemished reputation for the unsurpassed purity, refinement and excellence of the Serials, Sketches and Miscellaneous reading matter.
It is pre-eminently
THE BEST FAMILY PAPER
that is published in this county, from its never containing anything that would offend the feelings of any one, either in a religious or political sense, or that could not be read at any fireside without objection from the most fastidious.
The circulation of the Saturday Evening Post, though not quite so large perhaps, as its younger contemporaries, is not, like that of some of them, fluctuating. and too often short lived, but
SURE, SOLID AND SUBSTANTIAL,
based upon the intrinsic merit of the paper itself, and not dependent on any extraneous influences, such as the popularity of individual writers, &c.
Good, however, as the Saturday Evening Post has been in the past, it is our intention to make it still better in the future, and with this object in view we will effect a marked improvement in every department of the paper and will call to our assistance writers of admitted ability and known reputation.
By increasing its former attractions, and adding many judicious and pleasing novelties by studying how to please and cultivate the popular taste, by increasing industry and enterprise, and by enlarged facilities, we hope to make new friends with each and every issue, and continue to maintain the claim of the Saturday Evening Post to its title of *The Oldest and the Best* of Family Story Papers.

THE GREAT BALOON.
You've heard about the great balloon,
In which Professor Wise
Proposed to go to Europe,
By sailing through the skies,
He proposed to show the people
A quicker way for trips
Than ever had been known before,
By sailing o'er in ships.
Well everything seemed lovely
Upon that Autumn day,
When they began to pump in gas
To bear the barge away.
They pumped and pumped with all their power,
And things seemed nigh adjusted—
When there came an awful crash,
And the mighth bubble busted.
It's ever thus in human life,
Go whereso'er we may,
The darkest night will oft succeed
The brightest, sunniest day,
There are exceptions to this rule,
Where all the days are fair,—
For one, go down to JOHNSON HALL,
You'll find things all right there.
We've thought it best in cases like this,
This little fact to mention;
You need not ferr that they'll inflate
Beyond their power of retention.
And when they undertake to go
Their geer's so well adjusted,
They'll move straigh forward to their work,
With no fear of being "busted!"
